PROFILE

FRESH GRADUATE

As a recent graduate in Computer Engineering from Asia Pacific University of Technology & Innovation, I bring a unique blend of academic excellence and hands-on industry experience. My foundation in Aircraft Maintenance Technology from Despark College, combined with my computer engineering degree, has equipped me with a diverse technical skill set spanning multiple engineering disciplines.

Throughout my studies, I gained substantial practical experience through a year-long industry project at IoTech Solutions, working on real-world IoT applications and research initiatives. As an active member of the Center for Research and Development of IoT (CREDIT), I have developed proven expertise in programming, circuit design, and IoT systems, with a track record of award-winning innovations. I am passionate about leveraging technology to solve real-world challenges and am actively seeking opportunities to contribute to a dynamic engineering environment.

WORK EXPERIENCE

Whole Fruit Market — JAN 2018 - FEB 2018

Cashier

- Delivered exceptional customer service through effective communication and issue resolution.
- Ensured accurate cash handling and maintained transaction integrity.

PROJECT AWARD

1 . Lexo Leg Skeleton

- INVENTX Invention Exhibition 2023 at MMU Multimedia University (Gold Medal Award)
- International Invention, Innovation and Design Competition 2024 (Gold Medal Award)
- International Inter Varsity Innovation Challenge 2023 (Silver Medal Award)
- International Invention, Innovation, Technology Competition & Exhibition Malaysia (ITEX) 2024 (Bronze Medal Award)
- Virtual Innovation Competition 2024 (Silver Medal Award)
- Institution of Engineering , Malaysia (IEM) Student Research e-Poster Competition 2024 (Bronze Medal)

2. DiveXtreme: Dive into Future Through Changeable Lens

- InvencMax 3.0 Competition 2022 at UTM University
- Carnival Of Research & Innovation (CRI) 2023 (Gold Medal Award) Reference No: STS0005
- Virtual Innovation Competition 2023 (Silver Medal Award)
- International Borneo Innovation Exhibition (IBIEC) 2023 (Silver Metal Award)

3. Green Bio Blocks

- Malaysia Technology Expo (MTE) 2023 (Silver Award)

4. Machine vision based Plant Health monitoring

- Group Design Project

5. Development of an Agentic AIoT LLM Dashboard and Mobile Application for Multi-Modal Data Integration, Analysis, and Predictive Maintenance in Industrial Environments using MCP protocol (Industry Project)

- Final Year Project
- Research Publication [Submitted for Review Stage]

Academic Award

- Nissan GTR R35: Innovation & Technology (completion course) GTR: IT/0063/PJ
- MATLAB Onramp Course Completion under MathWorks
- CCNAv7: Introduction to Networks Completion in Cisco Networking Academy
- AWS Cloud Foundation
- Singapore Newton Programme (Foundation) for secondary 5 with Distinction
