- Selangor (Willingness to Relocate)

EDUCATION

2018 - 2020

DESPARK COLLEGE

- Diploma in Aircraft Maintenance Technology
- Highest CGPA 3.67

2022-2026

ASIA PACIFIC UNIVERSITY OF TECHNOLOGY & INNOVATION

- Bachelor of Computer Engineering with Honour
- Highest GPA 3.7

DE MONTFORT UNIVERSITY

- Master Degree of Computer Engineering

SOFT SKILLS

- Project Management
- Hardware & Software
- Teamwork
- Time Management
- Troubleshooting
- Effective Communication

LANGUAGES

- English
- Malay
- Chinese
- Cantonese

CHIN KAH MIN

FRESH GRADUATE
COMPUTER ENGINEERING
| ASPIRING AI ENGINEER

PROFILE

As a Computer Engineering graduate with a foundational background in Aircraft Maintenance Technology, I specialize in the deployment and integration of complex technical systems within industrial environments. I bring a unique blend of hardware-software expertise, demonstrated through a year-long industry project at IoTech Solutions, where I field-tested IoT prototypes for real-world connectivity and reliability.

My technical focus involves developing Agentic AIoT systems and utilizing the MCP protocol for predictive maintenance and multi-modal data integration. I am a proactive problem-solver with a "field-first" mindset, eager to leverage my technical versatility to deploy high-impact engineering solutions for global clients.

WORK EXPERIENCE

IoTech Solutions Research Assistant

Mar 2023 - Mar 2026

- Lead Developer for Agentic AIoT Workflows:** Deployed autonomous workflows using Microsoft AutoGen to automate multi-modal data analysis for industrial environments.
- Industrial Protocol Integration:** Implemented Model Context Protocol (MCP) to link live sensor data with LLMs for real-time predictive maintenance.
- Full-Stack IoT Deployment:** Developed a real-time monitoring interface using HTML, CSS, and JavaScript with SQLite for data visualization.
- System Optimization:** Field-tested and documented IoT connectivity to ensure high-performance reliability for industrial deployment.

AMZ Online Sdn Bhd Front-End Design Assistant

May 2025 - Dec 2025

- Front-End Visual Architecture:** Used Figma and Canva to architect web layouts and high-fidelity promotional assets based on client requirements.
- UI/UX Optimization:** Designed "Before & After" interface concepts to improve user engagement and digital data visualization.

STMicroelectronics Sdn Bhd IT Internship

Oct 2024-Mar 2025

- Full-Stack Development:** Developed an internal inventory management website using MySQL to streamline hardware tracking and system maintenance.
- Network Infrastructure:** Proactively monitored & optimized network performance, achieving high operational uptime & ensuring seamless connectivity for the IT department.

BKH Statue Trading Sdn Bhd Sales / Assistant Manager

Jan 2021-Dec 2021

- Operational Leadership:** Managed price negotiations and resolved complex client logistics autonomously.
- Strategic Communication:** Leveraged advanced negotiation skills to drive favorable business outcomes.

Asia AeroTechnic Junior Technician (Internship)

Jun 2020 - Dec 2020

- SOP-Driven Maintenance:** Executed aircraft hardware replacements and inspections in strict accordance with aviation safety SOPs.
- Daily Systems Validation:** Performed daily checks of cockpit systems and documented technical results to ensure operational readiness.

HARD SKILLS

Category	Skills & Tools	Proficiency
Software & App Dev	• Python (NumPy, Pandas) • C • C++ • Java • JavaScript • HTML • CSS • Flutter • Figma • Canva	
AI, Machine Vision & Data	• OpenCV • Mediapipe • YOLO (v5, v8, v11) • Roboflow • Agentic AI/AIoT • Microsoft AutoGen • Agentic AI/AIoT • Vector Database ◦ Qdrant (Docker) • LLM ◦ Qwen_VL, InternVL, GPT5, Llama Series ◦ RAG • Model Context Protocol (MCP) • MySQL & SQLite • AWS • Rapid Miner • R Programming	
Embedded ,Simulation & Infrastructure Systems	• MATLAB • Simulink • Solidworks • Cadence • LTSpice • Quartus • Arduino & Blynk • LabView • Cisco Packet Tracer • LabView	

PROJECT AWARD

- 1. Development of an Agentic AIoT LLM Dashboard and Mobile Application for Multi-Modal Data Integration, Analysis, and Predictive Maintenance in Industrial Environments using MCP protocol (Industry Project)**
 - Final Year Project & Research Publication [Review Stage]
 - EUREKA International Brussels 2026 - Gold Medal Award
 - Indonesian Invention & Innovation Promotion Association (INNOPA) - Special Award
 - OFEED Inc., Morocco - Special Award
 - Romanian Inventors Forum (FIR) - Special Award
- 2. JamAI Base Multi-Project Auditor Suite: Integrated LLM Orchestration with Streamlit**
 - Bootcamp Distinction
- 3. Lexo Leg Skeleton**
 - INVENTX Invention Exhibition 2023 at MMU Multimedia University (Gold Medal Award)
 - International Invention, Innovation and Design Competition 2024 (Gold Medal Award)
 - International Inter Varsity Innovation Challenge 2023 (Silver Medal Award)
 - International Invention, Innovation, Technology Competition & Exhibition Malaysia (ITEX) 2024 (Bronze Medal Award)
 - Virtual Innovation Competition 2024 (Silver Medal Award)
 - Institution of Engineering , Malaysia (IEM) Student Research e-Poster Competition 2024 (Bronze Medal)
- 4. DiveXtreme: Dive into Future Through Changeable Lens**
 - InvencMax 3.0 Competition 2022 at UTM University
 - Carnival Of Research & Innovation (CRI) 2023 (Gold Medal Award) Reference No: STS0005
 - Virtual Innovation Competition 2023 (Silver Medal Award)
 - International Borneo Innovation Exhibition (IBIEC) 2023 (Silver Metal Award)
- 4. Green Bio Blocks**
 - Malaysia Technology Expo 2023 (Silver Award)
- 5. Machine vision based Plant Health monitoring**
 - Group Design Project

Participate

- James Dyson Foundation Design Hackathon 2023
- Enterprise@APU Lazada Workshop - Brand Awareness
- Redis Sharing Session by IEEE Student branch
- Fostering Youth Potential in the Digital by Maybank
- Lazada Workshop Sharing
- Integrated AI Development (JamAI Base & Open-Source LLMs)
- Google Cloud: Graph RAG & Multimodal Agent Workshop
- Visit Sensata Technology Industry (MSG)
- LeRobot Worldwide Hackathon
- Donaldson Company inc Talk event
- Visit Sidec event SDEC 2024 & 2025
- Join Malaysia | AI-Builder Co-working 2025
- Webinar Engineers In Society by BEM
- Visit German-Malaysian Institute (GMI)
- Cambridge ICT Starters (Completion) MY166126074

Life needs to get better each day

Academic Award

- Nissan GTR R35: Innovation & Technology (completion course) GTR: IT/0063/PJ
- MATLAB Onramp Course Completion under MathWorks
- CCNAv7: Introduction to Networks Completion in Cisco Networking Academy
- AWS Cloud Foundation & AWS Cloud Architecting
- Gemini Certified Student Graduate (ID: 177105138)
- Singapore Newton Programme (Foundation) for secondary 5 with Distinction
